THE PHYSICAL DIFFERENCES BETWEEN THE RACES ARE GREAT

With such great physical differences between the white race and the colored race — there is bound to be great mental, moral, and spiritual differences. Red birds and blue birds — jay birds and meeking birds — peckerwoods and pellowhammers — are all birds: but they do not co-mingle or flock together. Each remains true to its color and kind.

IT WAS SO INTENDED

Rattle snakes and chicken snakes are all snakes — but it doesn't pay to try to mix them.

IT WAS SO INTENDED

Segregation was started in Biblical days.

IT WAS SO INTENDED

"Take Your Choice —

Segregation or Mongrelization"

By integration — while trying to pull one race UP — you unavoidably pull the other race DOWN.

Read of the regrettable marriages and other things that have taken place in the last several months in Washington, New York, Chicago, St. Louis, Hollywood and several other places — where they have chosen — or been forced — to do away with segregation.

It would be a sin and a shame for the Congress or Federal Courts to attempt to force integration upon that part of the white race that does not want it. The results would be disastrous.

The 14th Amendment to the United States Constitution does not give Congress or the Federal Courts the right to interfere in schools of the States. When the amendment was adopted, control of the colleges and schools was clearly regarded as a power reserved to each state — and there it should remain.

LEFT WINGERS AIM PURGE AT MIDWEST G.O.P.

By WALTER TROHAN

From Chicago Tribune, Monday, March 22, 1954.

DRIVE EMANATES IN WHITE HOUSE

Washington, Mar. 21 — Conservative midwest Republicans in Congress are alarmed that they are targets for liquidation in November under a program being directed from the White House by left-wing Republicans.

The conservative Republicans have called upon the White House to deny reports that they have been singled out for quiet purging by Republicans Socialists.

Human Events, a Washington news letter, charged that convincing proof now exists of a formidable conspiracy directed from the White House under the very eyes of President Eisenhower to destroy the American party in November by liquidating middle west Republicans.

Midwestern Congressmen have reportedly been marked as targets because they represent an area which has been opposed to internationalism and socialism of the New Deal pattern whether under the Democratic or Republican label.

Left wingers are reported to be working to defeat this hard core of opposition in order to commit the nation to a uniform policy of planned economy and foreign dogooding, whether the national administration be Republican or Democratic.

Human Events recalled that in 1950 Americans for Democratic Action formally signified its intention of invading the Republican party. A. D. A. pretends to be nonpartisan, but is made up of left-wing Democrats who supported the New Deal

Nowhere has the control of the Jewish international bankers and their Communist philosophy of government been more apparent than in the atomic energy program. Senator Herbert Lehman sent Dr. Alexander Sachs, an employee of his Jewish international banking house, Lehman Brothers, to President Franklin D. Roosevelt in October, 1939 with a letter from Albert Einstein, inveterate Communist-frontier, ordering Roosevelt to start work on the atomic bomb. John Hancock, partner of Lehman Brothers, was alternate delegate with Wall Street gambler Bernard Baruch representing the United States on the United Nations Atomic Energy Commission. When Gordon Dean

Lewis L. Strauss

A. M. Rosenberg

stepped aside for Strauss as Chairman of the U. S. Atomic Energy Commission, he became a \$100,000 a year "consultant" to Lehman Brothers. Now the Oppenheimer treason case is being decided by Thomas A. Morgan, a director of Senator Lehman's giant holding company, the Lehman Corporation!

David Lilienthal

David Lilienthal, scion of the Jewish international banking house of Hirsch Lilienthal (now known as Hirsch & Co.) was appointed by Truman as the first Chairman of the U. S. Atomic Energy Commission. He fought fanatically against American development of the H-bomb until Russia had time to catch up with the United States, and then resigned.

Hyman G. Rickover

J. Robert Oppenheimer

Lewis Lichtenstein Strauss

Lilienthal's dominant place on the U. S. Atomic Energy Commission was taken by Lewis Lichtenstein Strauss, partner of the international Jewish banking house of Kuhn, Loeb Co., which financed the bloody anti-Christian Communist revolution in Russia in 1917. Appointed by Truman, Strauss was called by Eisenhower to be his personal advisor on atomic energy. Do you get the picture? Three international Jewish bankers, Lehman, Lilienthal, and Strauss, all with Marxist connection, have been in constant control of the United States atomic energy program since its very inception, and they hired the Jewish Communist spies who gave the atomic bomb to Russia after it became apparent that the Jewish plan to give Russia the bomb via the United Nations was doomed to failure. Anna Rosenberg, identified before a Senate Subcom-

mittee as a Communist hired 10,000 people for the Manhattan (Atomic Energy) project (The New Yorker, Sept. 15, 1945.) She was a protegee of Bernard Baruch, who took over the task of representing the United States on atomic problems.

Military vs. Civilian Control

As soon as the Second World War was ended, the Jewish leftwing press, spearheaded by Eugene Meyer's Washington Post and the Daily Worker, began a hysterical campaign to

Herbert Lehman

Edward M. Warburg

get the atomic bomb away from military control. Although it was a military weapon, the Jews argued that our loyal American generals would use the bomb to create a "fascist" state here in America (fascist being a catchall term for anyone who opposes Jewish Communism). They were so successful in this vicious propaganda that public opinion was lulled to sleep when the Zionist-Communist traitor David Niles (Neyhus), Truman's Jewish master in the White House, created the U. S. Atomic Energy Commission in 1946, which took atomic energy control away from our generals and gave it to a five-man board, of whom four were Jews and one Gentile fellow-traveler of the Zionist conspirators.

This Commission was headed by David Lilienthal, now consultant with the international Jewish banking house of Lazard Freres, which was Eugene Meyer's family banking house. The other three Jews were Strauss of Kuhn, Loeb Co. and Dr. Robert F. Bacher, who was at the Los Alamos atomic bomb base with Jewish Communist spies David Greenglass and Julius Rosenberg, and William Waymack, editor of the Des Moines Register Tribune, owned by Gardner Cowles of Look Magazine, which follows the pro-Jewish racial line laid down by Eugene Meyer's Washington Post. Waymack's name has appeared on the boards of directors of many organizations dedicated to the destruction of the American Republic, among them the American Association for the United Nations, a nest of Communist fellow-travelers. He also is a director of the Federal Reserve Bank of Chicago. The Federal Reserve System was set up by Paul Warburg of Kuhn, Loeb Co. as exposed in "The Federal Reserve Conspiracy" by Eustace Mullins (order from Common Sense \$1.00). The Gentile stooge was Sumner Pike, a Wall Street banker.

In 1949, Lilienthal and Bacher were replaced by Justice Robert H. Jackson, prosecutor of the legal farce, the Nuremberg Trials, when we dealt out Soviet Justice to our defeated foes, and his Nuremberg assistant, Gordon Dean—this being their reward from the Jews for destroying the reputation of our nation's respect for due legal procedure.

In 1951 a protegee of Samuel Goldwyn and other Hollywood Jews, T. Keith Glennan, was appointed to the U. S. Atomic Energy Commission. A former studio manager for Samuel Goldwyn, Glennan certainly knew all about atomic energy! He also had been on the board of the Warburg-controlled Ansco Film Corporation and the General Aniline and Film Corporation (American Branch of I. G. Farben of which Paul Warburg was director).

Today the five-man Commission is headed by Lewis L. Strauss, who besides being a partner of Kuhn, Loeb Co. is on the board of directors of Industrial Rayon Corporation with Secretary of the Treasury Humphrey and State Senator Harry F. Byrd Jr. Strauss also for years has held the title of "financial advisor to the Rockefeller Brothers", showing the international Jewish banking control of the Rockefeller-Standard Oil trust and the Marxist dedication of the Rockefeller Foundation. The original Rocke-

feller expansion was master-minded by Jacob Schiff of Kuhn, Loeb Co. with Rothschild money, and Kuhn Loeb has guided Standard Oil ever since. Strauss is also a director of Radio Corporation of America, Rockefeller Center Inc., and the National Broadcasting System, which may explain the Marxist orientation of our radio-television networks.

Also on the present Commission is another Jew, Eugene Zuckert, son of Harriet Pincoffs, and three Gentiles, Henry Smyth, who was on the Manhattan Project with Greenglass and Rosenberg; Joseph Campbell, who is on the boards of corporations with partners of the international banking house of J. and W. Seligman Co. and George E. Warren of Wallace and Tiernan (the chlorination and fluoridation trust); and the fifth member is Thomas E. Murray, who was chosen by the Jewish bankers as receiver for the IRT subway system in New York after they had looted it of hundreds of millions of dollars through crooked financing. He is a director of the Bank of New York with John Foster Dulles.

More alarming is the fact that most of the members of the U. S. Atomic Energy Commission to date have been members of the Council on Foreign Relations, central and co-ordinating international agency in the United States, supported by Kuhn Loeb and the Rothschilds, and sister organization of the Royal Institute of International Affairs in London, also supported by the Rothschilds. These two organizations were founded jointly by Baron Eduard de Rothschild at the Paris Peace Conference of 1919, and are parent-institutes of the Institute of Pacific Relations, the agency which the McCarran Committee investigation proved was responsible for the delivery of China to the Soviet Union, giving Communism 400,000,000 new allies, and condemning the Chinese people to hopeless slavery under Jewish commissars from Moscow. Thus Chinese Communist troops were able to slaughter thousands of captured American boys in Korea. However, the Institute of Pacific Relations traitors still go unpunished, because they are the Wall Street bankers and lawyers who support Communism.

Oppenheimer's Treason

On April 6, 1954, Senator Joseph R. McCarthy revealed to his television audience that traitors had delayed our development of the hydrogen defense bomb program by eighteen months. He declared that our intelligence agencies had informed him that Soviet Union had caught up with our lead in the production of nuclear weapons. He also said he wanted to make a full scale investigation into the H-bomb treason.

This meant that he would be investigating the three international Jewish bankers, Lehman, Lilienthal, and Strauss. Immediately a terrific smear campaign, more intense than any yet made against him, was launched through radio, television, and the daily press. The television farce of McCarthy-Army began, its avowed purpose being to crush McCarthy once and for all, its instigators believing that because the entire proceedings were so ridiculous, McCarthy would necessarily be made ridiculous. Of course Secretary of the Army Stevens would be made into a Milton Berle type of clown, but he was to be sacrificed in the vicious attempt to halt McCarthy's threatened probe into the H-bomb program. It is intended that Stevens will resign as soon as the hearings are concluded.

McCarthy has repeatedly told the television audience that the hearings are a circus; designed only to stop his committee's vital investigations. The audience should write to their Senators, demanding that Eisenhower stop his criminal attempt to crush McCarthy and his investigations.

Doom Of Western Civilization

Because of the eighteen-month delay in our production of the H-bomb, by Oppenheimer and Lilienthal, Senator McCarthy warned that our nation and our civilization may die. It is almost a certainty that this means a Third World War with all the horrors of atomic weapon destruction visited upon our homeland. The terrible blame rests upon these Jewish bankers and their Jewish scientists who profess the Marxist philosophy. The New York Times, Congressman Sterling Cole of the Joint Congressional Committee, and every other authority on the subject name David Lilienthal and J. Robert Oppenheimer as the two men who delayed the H-bomb. What is wrong with us? Do we have to be shot down in our homes before we see the necessity for protecting our nation from these enemies in our midst? Oppenheimer is the

personal protegee of Lewis Lichtenstein Strauss, as revealed by the New York Times of April 13, 1954, which stated that Strauss had appointed Oppenheimer to the post of head of the Institute for Advanced Study at Princeton, New Jersey.

Had we been able to retain our leadership in the production of atomic weapons, we could have warned Soviet Union, "Stop the spread of aggressive Communism and release the captive nations from the deathgrip of your Jewish commissars, or we will employ atomic weapons against you." This course of action has been urged by many of our military leaders, who recognized long ago that either Soviet Union would wipe us out or we would stop Communism. There is no middle ground in dealing with an international conspiracy. Sinister influences in Washington demoted and silenced those military leaders, gave the atomic bomb to Russia, and delayed our production of the H-Bomb. These influences have now been proven to be entirely Jewish, boldly committing treason from the protection of the White House on a scale hitherto unknown in the world.

Jew Control

The New York Times of April 18, 1954 says, "Fermi, Szilard, and Wigner of Princeton met with Alexander Sachs of the Lehman Corporation to discuss the possibility of an atomic bomb. On Oct. 11, 1939, Sachs read to President Roosevelt a letter from Einstein and a memo from Szilard. The President ordered an Advisory Committee on Uranium to be set up."

Who's Who In America, 1951, contains the following entry,

"Dr. Alexander Sachs, born Rossien, Russia, economist, graduated from Harvard Graduate School, now economic advisor and director of the Lehman Corporation, member of the National Policy Committee, special consultant to the Office of Strategic Services during World War II, originated the atomic project in conference with President Roosevelt in 1939, and served as the President's representative on the organizing committee of the Manhattan Project (atomic bomb program)."

A gentile, Major General Groves, was placed in charge of the Manhattan Project, but he was powerless to maintain control over the horde of alien Jewish Communists which infiltrated every level of the operation. The influence of Harry Hopkins and Anna Rosenberg was too much for him. They as well as Dr. Sachs must be held responsible for the long list of convicted Jewish spies, Rosenberg, Greenglass, Sobell, Gold, Brothman, Weinberg, etc. who gave the atomic bomb to Russia and placed the American people in grave danger of atomic annihilation.

Dr. Sachs was a special consultant to the Office of Strategic Services in 1945 when that agency compiled a secret list of German scientists who had been working on the atomic program in Germany, and gave that list to the Russian secret police, who immediately arrested these scientists and shipped them to Russia to work in the Soviet atomic program. Those on this list, whose names could have been known only to Sachs or his co-workers, were obligingly arrested by our military police, acting on orders from the Eisenhower administration of Germany, and handed over to the Communists.

Baruch And The Atomic Program

The aged Bernard Baruch himself came out of retirement to take charge of the atomic program. He appointed himself U. S. Representative to the United Nations Atomic Energy Commission in 1946, and came forth with a plan for international control of atomic energy, in blissful ignorance of the fact that it had been developed in America with American money and resources. The following year Oppenheimer came out with a program which clearly showed his political allegiance. He wanted a World Atom Authority, with six laboratories in different countries, to be open to any scientists of any nation seeking information and aid in atomic development. Naturally this would include Soviet Union.

The alternate U. S. Representative to the U. N. Commission on Atomic Energy was John Hancock, partner of Senator Herbert Lehman's family banking house of Lehman Brothers, which has furnished so many top people for the atomic program.

Atomic Treason

In November of 1946 it was estimated by our intelligence agencies that Russia could not possibly build an atomic bomb in less than six years, and even in 1949 the Presidential Com-

H-BOMB TREASON

—(Continued from Page 2)—

mission on Air Policy set 1953 as the earliest date we could expect an atomic attack from Soviet Union. Only a few months later, in September 1949, Truman announced that an atomic explosion had taken place in Soviet Union. The Jewish Communist spies had been able to deliver our recent plans to our enemies.

Bombing Of Japan

Not only had the Jews given the Soviet Government the atomic bomb, but by deliberately engineering an atomic attack upon Japan during the closing weeks of the Second World War, they had placed the United States in the intolerable position of having been the first to use the horror weapon against civilians, thus giving Communist Soviet Union the opportunity to use it on us whenever she felt like it. Our military leaders have now testified that it was completely unnecessary to use the horror bomb on Japanese civilians. Japan, already defeated, had been suing for peace for weeks, but we would not receive her offers. The Emperor and Prime Minister, Suzuki, in July desperately tried to make peace, but Soviet Ambassador Malik, in Tokyo, sabotaged the peace efforts of the Japanese government.

Who ordered the bomb used against Japan?

The lawyer for Kuhn, Loeb Co., Henry L. Stimson, senior partner of the Wall Street firm of Winthrop and Stimson and law partner of the fanatical Zionist leader, Supreme Court Justice Felix Frankfurter, boasts that he is solely responsible for the decision. Stimson was Roosevelt's Secretary of War. In his autobiography, "On Active Duty in Peace and War", Stimson says on page 612,

"For nearly four years I was directly connected with all major decisions of policy on the development and use of atomic energy, and from May 1, 1943 until my resignation as Secretary of War on September 21, 1945, I was directly responsible to the President for the administration of the entire undertaking. At the same time I was the President's senior advisor on the military employment of atomic energy. The atomic energy undertaking was not solely American. It was another and conspicuous example of co-operation between the United States and the British Commonwealth, in this instance represented by Great Britain and Canada, the latter being a critically important source of raw materials. In April I set up the Interim Committee which held discussions on the whole field of atomic energy. I was its chairman, but the principal labor fell to George L. Harrison (Governor of the Federal Reserve Bank of New York, who is dealt with at length in The Federal Reserve Conspiracy), who acted as Chairman in my absence; James F. Byrnes, personal representative of the President (Byrnes had been Baruch's right-hand man and political lieutenant since 1912); Ralph A. Bard, Under Secretary of the Navy; William L. Clayton, Under Secretary of State (former law clerk to Justice Brandeis, fanatical Zionist leader and uncle of Felix Frankfurter. Dr. Vannevar Bush, Chairman of the Carnegie Institution of Washington (which made many grants to pro-Communist fellow travelers); Dr. Karl T. Compton, and Dr. James B. Conant (as President of Harvard, refused to discharge revolutionary Communist professors). The Interim Committee recommended on June 1, 1945 that the bomb should be used on Japan without any specific warning. The ultimate responsibility for the recommendation to President Truman rested upon me. The detailed plans were brought to me for approval. I approved four targets including the cities of Hiroshima and Nagasaki."

This bland confession of guilt for the slaughtered hundreds of thousands of helpless Japanese civilians by radioactive poisoning at Hiroshima and Nagasaki also appeared in Harper's Magazine, February, 1947. Stimson, the creature of Kuhn, Loeb Co., was the law partner of Bronson Winthrop, director of the International Acceptance Bank and the Bank of Manhattan, both enterprises of the Warburg Family of Kuhn Loeb Co.

Amiral Ellis Zacharias, head of the Office of Naval Intelligence, says in his book, "Behind Closed Doors",

"The development of the atomic bomb needed foreign prodding and encouragement. It was left to a group of foreign-born physicists, centering on L. Szilard, and including E. Wigner, E. Teller, V. F. Weisskopf, and to their foreign-

born sponsor Dr. Alexander Sachs to stimulate reluctant American support of its use for military purposes."

This valuable testimony by a secret service chief proves that Americans would never have used the horror weapon upon helpless civilians, but the Gentile stooges of the international Jewish bankers went ahead and dropped the atom bomb on Japanese cities, without the knowledge or approval of the American people, most of whom were horrified when they heard about it. The inhabitants of Hiroshima and Nagasaki were doomed to their horrible death by Kuhn Loeb lawyer Stimson and his circle of Jewish Communist physicists. Now Russia can say "We have every right to drop atomic weapons on America, because she used them first against the Japanese civilians."

While international Jewry directed the development of the atomic bomb, its very existence was kept secret from the American people. It was truly the best-kept secret of the war, although Major George Racey Jordan in his diaries, published by Harcourt Brace, 1952, records that Harry Hopkins sent tons of daily reports and uranium samples to Russia via air mail through the Lend-Lease Air Base at Great Falls, Montana. Thus the Communists were kept informed of every atomic development, while loyal Americans were not allowed to know about or participate in the program.

However, one "American" journalist was permitted to know everything about the atomic bomb project. Of course he was a foreign-born Jew. Here is his Who's Who In America biography for 1951:

"William L. Laurence, son of Lipman and Sarah (Preuss) Siew, born in Salantai, Lithuania, graduate of Harvard Law School. Selected by heads of the atomic bomb project to visit secret war plants and write series of reports following use of bomb against Japanese from April to September, 1945. Only journalist present at first atomic test explosion New Mexico July 16, 1945. With atomic bomb mission to Marianas Islands, August, 1945, flew with mission to Nagasaki, witnessed both atomic bomb explosions at Bikini, awarded Pulitzer Prize for report on Nagasaki."

William Siew does not bother to inform us how he came by the name of Laurence, or who selected him to be the only journalist allowed to know about our bomb. A Lithuanian Jew, his loyalty was presumably greater than that of native-born Americans. He is now atomic expert for the New York Times, owned by Jews, Sulzberger and Adler, who boast that news must be slanted.

Atomic Submarine

When the Navy started to build an atomic submarine, a former personal aide of Lewis Lichtenstein Strauss, was chosen to head the program. He was Captain Hyman Rickover, a sinister-appearing Jew. Subsequently, the White House ordered the Navy Department to promote Rickover to the rank of Admiral over the heads of hundreds of loyal Gentile officers. The Navy refused and a desperate battle ensued. The outcome was that Rickover was made an Admiral, and the upper echelon of our Naval officers was left completely disgusted and demoralized. One top naval officer said in an interview that the damage done to our Navy by the Rickover case was incalculable, and had greatly assisted the Russians by breaking down the morale of our officers.

The atomic submarine contracts went to Westinghouse, controlled by Kuhn Loeb Co., and the Electric Boat Co., a subsidiary of Vickers of England, controlled by the Rothschilds. It is not generally known that most of the world's munitions productions is in the hands of Jewish bankers who preach disarmament on the one hand while stealthily rearming nations on the other, in preparation for future slaughters of the Gentile cattle according to the Protocols of Zion (order from Common Sense \$1.00).

The Strange Case Of Dr. Oppenheimer

Of course a Jew, Dr. J. Robert Oppenheimer, a scientist, was placed in charge of the atomic research program from the very beginning, while the Jewish Communist Anna Rosenberg, of Budapest, Hungary, was placed in charge of hiring the manpower for the project. The American people were horrified recently when Maj. Gen. K. D. Nichols of the Atomic Energy Commission, charged in a letter to Oppenheimer on December 23, 1953 that Oppenheimer's brother, Dr. Frank Oppenheimer, had been an ardent and long-time member of the Communist Party, that J. Robert Oppenheimer's wife Katharine Puening had been the wife of a fanatical Communist, Joseph Dallet, who was killed fighting for the Communists in Spain, that she met Steven Nelson (Mesarosh) in Spain, that when she came to America and married J. Robert Oppenheimer, Steve Nelson, one of the top-echelon Communists, was a frequent guest in their home in Berkeley, California.

Many other Communist connections of Oppenheimer were cited, his membership in some of the more notorious Communist-fronts, his signing of numerous petitions on behalf of Communist causes, his frequent entertainment of the most prominent Communist leaders of America, and his close connections with Jewish Communist spies in the atomic energy program.

Consequently, Oppenheimer was removed from the atomic energy program, and denied access to our atomic installations. On May 28, 1954, the AEC decided that Oppenheimer was "a loyal citizen." But they couldn't trust him with our national security! However, this was only a joke. All of our top-secret atomic developments were kept at the Institute for Advanced Study in Princeton, New Jersey, a Jewish cultural center set up

by the late Louis Bamberger, wealthy department store owner of Newark, New Jersey, and directed by L. L. Strauss, who placed Oppenheimer in charge of the Institute. The longtime friend of the Soviet Union, Albert Einstein, who had urged Jewish Communists not to testify before Congressional Committees, is at the Institute, and Emmanuel Goldenweiser, the Russian Jew who directed the Federal Reserve System for thirty years, was also sent to the Institute after his retirement.

This is an admirable case of locking the barn door after the horse has been stolen. Oppenheimer and his little group of Jews at the Institute has all of our atomic secrets. The obvious course is that Oppenheimer should be arrested at once and the atomic secrets removed from the Institute. The Jewish scientist Bruno Pontecorvo worked his way to the top of Great Britain's atomic program, then took the English plans and his wife and children and went to the Soviet Union. When will Oppenheimer do the same? He should be locked up at once! All Jews feel that Soviet Russia is their homeland, because it is under the control of Jews and has laws against "anti-Semitism". That is, anyone who opposes the Jewish Communist hierarchy is sent to the concentration camps, a system which the Jews are desperately trying to introduce to America. They have already built the concentration camps here, and hope to have a world government force by next year which will round up loyal Americans and send them to these camps to die.

H-Bomb Delay

Already it has been proved that Oppenheimer has done inestimable harm to our defense program and has been of great assistance to the Soviet Union. On February 12, 1950, Oppenheimer, Lilienthal, and Albert Einstein appeared on Eleanor Roosevelt's television program and opposed the development of the H-bomb. Dean Acheson, lawyer for the Soviet Union participated in National Security Council discussions which delayed the production of the H-bomb. The Nichols letter of Dec. 23, 1953 charged that Oppenheimer continued to fight a desperate delaying action against the H-bomb even after it had become a matter of national policy on which the go ahead had been given by our government. He even tried to dissuade other scientists from working on the H-bomb!

In 1951 Oppenheimer came out with a plan to prevent the Strategic Air Command from using its long-range bombers to deliver the H-bomb, which so alarmed our air strategists that an investigation of his Communist loyalties was ordered. As chief adviser to the Defense Department and State Department on the use of atomic energy, he did harm to our nation which may not be revealed for years.

Protege Of Strauss

J. Robert Oppenheimer is a personal protege of Lewis Lichtenstein Strauss, international Jewish banker, partner of Kuhn, Loeb Co. which financed the Communist Revolution in Russia, according to the Sisson Report to President Wilson in 1918, according to the Overman Report (Senate Document 66, 1919) and according to many other Government documents. Cholly Knickerbocker, in the society column in the N. Y. Journal-American Feb. 3, 1949, said:

"Today it is estimated even by Jacob Schiff's grandson, John Schiff, a prominent member of New York society, that the old man sank about \$20,000,000 for the final triumph of Bolshevism in Russia."

Jacob Schiff was the senior partner of Kuhn, Loeb Co. John Schiff is now President of the Boy Scouts of America, which may explain the heavy doses of Marxism which our American boys are getting along with their Boy Scout training these days. His sister Dorothy Schiff, many times married, is editor of the violently leftwing New York Post, which sees Communist-hunter McCarthy as the real danger to America. Naturally she has staffed her paper with a number of Marxists who call themselves "ex-Communists".

The New York Times of March 24, 1917 told of wild revels by Jewish Communists in Carnegie Hall the previous evening, led by Rabbi Stephen S. Wise and George Kennan, personal agent of Jacob Schiff in Russia before the Communist revolution. Kennan boasted of how he had distributed tons of revolutionary propaganda in Russia, all paid for by Schiff. His nephew and namesake, George Kennan, subsequently became Ambassador to Moscow, but when I made this information on the Kennan family available to a number of Congressmen, Kennan saw fit to retire from the State Department.

A-Bomb Spies Were Jews

Hungarian Jewess Anna Rosenberg, positively identified as a Communist before the Senate Armed Services Subcommittee by Ralph de Sola, hired personnel for the Manhattan Project. Of course she hired those of her own race and revolutionary allegiances, Julius Rosenberg, Ethel Rosenberg, both of whom died in the electric chair for having given our atom bomb secrets to Russia, David Greenglass, Harry Gold, Julius Fuchs, Morton Sobell, as well as their associates Abraham Brothman, Miriam Moskowitz, Sidney Weinbaum, Julius Fuchs, Bruno Pontecorvo, Joseph Weinberg, and Steve Nelson (Mesarosh).

Canadian Spy Ring

Igor Gouzenko exposed a Canadian spy ring which was handing over atomic secrets to Russia. It was headed by Fred Rose, a Polish Jew who had shortened his name from Rosenberg. Rose was actually a member of the Canadian Parliament, elected by revolutionaries living in Montreal. Second in charge was Sam Carr, who had abandoned his birth name of Cohen. Professor Raymond Boyer, who married the Jewess Anita Cohen, was sentenced to two years in prison for his part in the espionage. Yet when Gouzenko went to the Canadian Government with this information, he was denounced by Prime Minister Mackenzie King for "trying to disrupt Canadian-Soviet relations"! Finally an Ottawa newspaper forced a Royal Commission investigation. Other principals in this affair were Israel Halperin, Samuel Gerson, and David Shuger, all Jews.

H-BOMB TREASON

—(Continued from Page 3)—
How can any nation admit such people to citizenship?

English Spy Ring

In England the Jews also took over the atomic energy program, and, aided by Oppenheimer and Albert Einstein, sent their spies over here to learn all of our atomic secrets, which then were handed over to Russia. Simon Kremer, Russian Attache in London, handled the details of English atomic scientist Bruno Pontecorvo's flight to Russia. An Italian Jew, Pontecorvo's brother, Gilberto, was one of Italy's most fanatical Communists, yet England cheerfully placed her atomic program in his hands. Col. Milstein, assistant chief of Intelligence in Moscow, received most of the atomic information. In the same way, a Jewish clerk in the Russian Consulate in New York, Anatoli Yakovlev (Jacobson) received most of the American atomic information.

Stalin's Indifference

James Byrnes relates that when Truman told Stalin we had a powerful new bomb at Potsdam in 1945, Stalin paid no attention. He already knew more about the new bomb than Truman did.

Why Atomic Energy?

The Jews had to gain control of atomic power for several reasons. First of all, they already control most of the public power in America and other nations. Victor Emanuel's giant holding company, Standard Gas and Electric controls one-third of U. S. electrical power, J. and W. Seligman's holding company Electric Bond and Share controls one-fourth, Lehman's holdings in Niagara Power accounts for another huge portion, while the Schoellkopf family and Kuhn, Loeb hold the rest of U. S. public utilities. It was this Jewish banker control of electric power which forced Senator Harry Byrd to go on the air with public testimonials favoring the appointment of Jewish Communist Anna Rosenberg as Assistant Secretary of Defense. Virginia Electric Power Company, controlled from New York, forced Byrd to perform the most distasteful job of his political career and one which yet will ruin him.

If atomic power were developed outside of Jewish hands, it would bankrupt these Jews and their billions of dollars worth of holdings in electrical power. Consequently, they wrested control of it from the United States Army, set up a five-man Commission according to the plan of David Niles, and set up a Joint Congressional Committee on Atomic Energy in charge of Senator Brien McMahon; whose law partner William Pearl shocked the civilized world with his sadistic tortures of German prisoners-of-war.

Keep Hold Over Gentiles

Once the Jews had control over atomic energy, they refused to let it be developed for peaceful purposes, and devoted its power to military use, finally perfecting bombs which would exterminate all life over areas of thousands of square miles. Thus God's gift to the peoples of the world, which would have given them sufficient energy to power every home with light and energy for every conceivable purpose, was perverted by the Satanic Jews into a horror weapon which in their hands will make the earth a poisoned desert, floating lifeless in space.

In 1947 Albert Einstein predicted that in eight years, that is, 1955, we would have an atomic war in connection with the struggle to set up world government! Christians, this is 1954! You have only a few months in which to decide your own fate.

Can the Gentile peoples of the world look forward to anything but radioactive death? Sooner or later, when they begin to resist the Anti-Christian Jews, the Jews will threaten us with this weapon. They are a criminally insane people who will not hesitate to destroy themselves and the rest of the world. Every Christian American should pray that the murderers of Christ will not be allowed to triumph over us and condemn us to a life of hopeless slavery under atheistic Communism.

Do You Know ...

why our three Democratic presidents in the twentieth century gave us three foreign wars? Do you have any idea of the relationship between war dead of native stock and immigrations? Do you know that, in defiance of all quota and other laws, as many as 77% of our immigrants per year have belonged to one unassimilable minority? Do you know why the Middle East, friendly for a hundred years, is now inflamed at Britain and America? Do you know the strange ways in which the Truman Administration helped the Communists who were killing our men in Korea?

After reading **THE IRON CURTAIN OVER AMERICA** by John Beatty, you will know the answers to the above and similar questions

LEFT WINGERS AIM PURGE AT MIDWEST G.O.P.

—(Continued from Page 1)—

and who captured the campaign of Adlai Stevenson in 1952.

At the time of the announcement, Republican leaders in Congress had drafted an attack on socialism and communism in the Truman administration.

On July 4, 1950, a movement designated as Republican Advance, was launched in Pennsylvania. The movement called for soft-pedaling the G. O. P. attack on the socialism and communism of the Truman administration.

The movement was launched by a number of Republican congressmen, including Richard Nixon, then campaigning for the senate in California and now Vice President. Also in the movement was John Cabot Lodge, then party nominee for governor of Connecticut, and Christian Herter, later party nominee for governor of Massachusetts. Both Herter and Lodge were successful in their state campaigns.

Other Republicans in the movement included Rep. Auchincloss (N. J.); Rep. Corbett (Pa.); Rep. Fulton (Pa. 27th Dist.); Rep. Hale (Me.); Rep. Heselson (Mass.); Rep. Hope (Kans.); Rep. Javits (N. Y.); Rep. Judd (Minn.); Rep. Kean (N. J.); Rep. Keating (N. Y.); Rep. Nelson (Me.); Rep. Saylor (Pa.); Rep. Scott (Pa.); Rep. Tollefson (Wash.); and Rep. Widnall (N. J.).

A month after the formation of Republican Advance congressional investigators revealed that efforts of the A. D. A. "seeking to infiltrate the Republican Party" were being directed from the White House by a Truman assistant, David D. Lloyd, who had been under fire from Sen. McCarthy (R. Wis.).

Russell Davenport, Time and Life editor, who was campaign manager for Wendell Willkie, played a major role in organizing Republican Advance. Davenport, an ardent one-worlder left the Republican party later but returned to support and work for internationalism under Eisenhower.

Before the 1952 Republican convention, Human Events said, a highly confidential document was circulated among top Republican leaders which warned that left-wing supporters of Mr. Eisenhower evidently were counting on electing the former general so they could use the White House to take over the Republican party as other left wingers had been successful in capturing the Democratic party under Roosevelt and Truman.

Republican Advance was absorbed in a reactivation of the "Citizens for Ike Clubs," Human Events reports. The news letter says the program of the reactivated groups bears astonishing resemblance to the program of the A. D. A. and to the Democratic platform of 1952, which the A. D. A. had a hand in preparing.

At the February meeting of the Republican national committee, Mrs. H. Chapman Rose reportedly acted as a liaison between the national group and the Citizens for Ike clubs. Her husband is assistant treasury secretary, but also served in the Truman administration.

Mrs. Rose told how helpful the Ike club could be in the campaign. However, a national committee-woman from the middle west threw the meeting into an uproar by telling how the clubs were being used in Illinois to boost their own candidates against Republican incumbents.

Human Events reports:

"The national offices of the Ike clubs are in the duPont building, Washington, D. C. In one room there is a large map of the United States on the wall. There are solid clusters of blue pins on the midwestern portion and very little elsewhere.

"An employee explained to a visitor that the pins represent localities which had requested financial help from national headquarters in the coming congressional campaign. Thus are confirmed reports that the purpose of Citizens for Ike club is to unseat congressmen whose Americanism could never subscribe to an A. D. A. Democratic party Ike clubs legislative program for New Deal socialism and internationalism."

URGENT POSTSCRIPT:

I am soon going to press again with **THE ANTI-DEFAMATION LEAGUE AND ITS USE IN THE WORLD COMMUNIST OFFENSIVE**. This probably is the last time I will ever reprint this booklet. This was the booklet which perhaps more than anything else in 1947 and the years following, launched the drive to expose the Anti-Defamation League OGPU. The booklet made history and still cannot be factually refuted by the power cultists. If you want copies of it please let me know at once; otherwise it will no longer be available. Prices 35c; three for \$1; 10 to 49 copies at 30c each.

IF JESUS CAME TO YOUR HOUSE

(Author Unknown)

If Jesus came to your house to spend a day or two—
If He came unexpectedly, I wonder what you'd do.
Oh, I know you'd give your nicest room to such an honored Guest,

And all the food you'd serve to Him would be the very best,

And you would keep assuring Him you're glad to have Him there—

That serving Him in your home is joy beyond compare.

But—when you saw Him coming would you meet Him at the door

With arms outstretched in welcome to your heavenly Visitor?

Or would you have to change your clothes before you let Him in,

Or hide some magazines and put the Bible where they'd been?

Would you turn off the radio and hope He hadn't heard,

And wish you hadn't uttered that last, loud, hasty word?

Would you hide your worldly music and put some hymn books out?

Could you let Jesus walk right in, or would you rush about?

And I wonder—if the Savior spent a day or two with you,

Would you go right on doing the things you always do?

Would you go right on saying the things you always say?

Would life for you continue as it does from day to day?

Would your family conversation keep up its usual pace,

And would you find it hard each meal to say a table grace?

Would you sing the songs you always sing and read the books you read,

And let Him know the things on which your mind and spirit feed?

Would you take Jesus with you everywhere you'd planned to go,

Or would you, maybe, change your plans for just a day or so?

Would you be glad to have Him meet your very closest friends,

Or would you hope they'd stay away until His visit ends?

Would you be glad to have Him stay forever on and on,

Or would you sigh with great relief when He at last was gone?

It might be interesting to know the things that you would do,

If Jesus came in person to spend some time with you.

WE SEE WE TURN WE FEEL RED, WHITE & BLUE

RED! We see red before our eyes wherever we turn. The red blood of our sons, our brothers and our husbands is soaking the earth beneath them in Korea. The red flag is waving over half the population of the world. Reds have infiltrated into high positions in our government and the institutions vital to our national existence. And the people only "yak-yak" about it!

WHITE! We turn white at the thought of what is going to happen to millions of innocent Christian Americans on the day the i-n-v-i-s-i-b-l-e Marxist u-n-d-e-r-g-r-o-u-n-d in this country, waiting for the "whistle to blow," takes over the government in this country as they did in Russia in 1917 and thirteen other countries since! God have mercy on us!

BLUE! We feel blue that this paper might go out of existence for the want of a few thousand dollars. The editor put the last dollar of his life's savings into this medium to inform and alert America. The bottom of the barrel is scraped clean, but he keeps going!

THE CRACKER BARREL

EAGLE ROCK, Cal., Feb. 22.—I am a Democrat who voted Republican when Eisenhower ran for President. I didn't do it because I thought the elephant was a prettier animal than the donkey. Or because I was intellectually overwhelmed by the logic of a political philosophy that was summarized by the slogan, "I Like Ike." I didn't even do it because I loved Ike's grin. Smirking Harry and beaming Franklin had made me a little leary of grinning Presidents. I always suspect a fellow who grins when I don't know what he's grinning about. He's too apt to be puttin' somethin' over on me.

No, I voted Republican last time because I was sick and tired of Alger Hiss, Owen Lattimore, Harry Dexter White, Phillip Jessup, and all the Democratic appointees who were sellin' out this country. So did a lot of other Democrats. We put country above party. Now we feel a little bewildered when Ike says the Republicans should lay off these guys because it might offend the Democrats. That don't make sense — even when he tries to pass it off as bipartisanship! IF TWO PARTIES ARE FOR A BAD THING, WE SHOULD BE AGAINST BOTH PARTIES.
